

ASSISTANCE IN LIFE GOALS WEEKLY GROUP MEETINGS EDUCATIONAL RESOURCES

Parent Life connects trained adults with expecting, or parenting teens in programs designed to help them make good choices and establish a solid foundation for their lives and in the lives of their children.

The Parent Life program is designed to help a young man or woman, just barely out of their own childhood become a good parent and still be a kid themselves.

We help teens accomplish life goals by providing support and guidance through education, social and spiritual resources designed to meet their needs. Parent Life is a fun, supportive group of caring adults that “do life” with pregnant and parenting teens.
